Allowable Subject Matter

The following is an Examiner's Statement of Reasons for Allowance:

In interpreting the claims, in light of the specification and the applicants' arguments, the examiner finds the claimed invention to be patentably distinct from the prior art of record.

The examiner finds applicants' arguments filed October 12, 2004 to be persuasive. The applicants argued in substance that the prior art of record failed to teach or suggest a system and method wherein, in combination with other limitations claimed, "if the user location algorithms fail, sending a Location Request message to its higher level gatekeeper, which performs a user location algorithm on its attached users and gatekeepers except the originating gatekeeper."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul H Kang whose telephone number is (571) 272-3882. The examiner can normally be reached on 9 hour flex. First Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on (571) 272-3880. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
